

Our Agency “Values” YOU!

Remember our Corporate Values – our 4Cs:

CHOICE: Your choices matter as to what is most comfortable and appropriate for you and your loved ones during this critical time. The organization will never require you to do something you do not choose. We will respect your decisions. We only ask that you respect our organization as well, in what we determine as the best choice for our corporation.

COMMUNITY: We want to ensure we are open to serve our many stakeholders. We will maintain programs and services as long as possible following the guidelines set by our government.

COMMITMENT: In cooperation with following all guidelines, we must also keep our commitments to our stakeholders – both participants and business partners. Understand that we are the last stop in the supply chain and many customers depend on our production. We will again follow Best Practices to keep our work environments safe and sanitary.

COLLABORATION: This is a TEAM Effort. We will ask all of our team members to be open and willing to assist in maintaining our mission and social enterprising operations. You may always exercise your CHOICE, but we expect teamwork at all times.
